

EXPRESSIVE BOTANICALS

Monochrome drawings exploring flowers, foliage
and the quiet changes of nature.

ABOUT THE WORK

BEAMYBEAM Expressive Botanicals
is a collection of expressive monochrome botanical drawings
created digitally with the character of traditional pencil.

Rather than aiming for botanical accuracy, the drawings explore
the gesture, texture and changing character of flowers and plants
through loose, imperfect lines.

The work is created from the artist's own photographic
observations of botanical subjects, allowing each drawing to retain
a personal and spontaneous quality.

The collection is intended for books, poetry and literary
publishing, journals, stationery, gift books and selected editorial
and licensing applications.

FROM BLOOM TO WITHER

An expressive study of changing botanical form.
